DEVELOPMENT AT EXTENSION PROGRESSING

Weekly operations of the property
of the Tonopah Extension Mining
company showed an improvement in
development over last week. A total
of 278 feet of development work was
consumed during the seven days
ending December 23. Mine and mill
operations are satisfactory at the
lump and everything is running along
smoothly.

On Tuesday a bullion shipment was
made covering the cleanup made
from the mill for the first 15 days

NOTICE OF FORFEITURE

James A. Hilger, your clerk, accounts
and assistant.
You are hereby notified that the
undersigned, your assistant, has
pending before him (Hilger) the
claim of labor and improvements on
the property of the Tonopah Extension
Mining Company, Nevada, and the
same is recorded in the records of
said county in order to hold possession
of the same and to hold the same
under the provisions of Section
2124 of the Revised Statutes of
the United States and the amendments
thereof, and supplemental legislation
of the State of Nevada providing
for the annual labor and improvements
claim made for the year ending July
1st, 1921.

If within ninety (90) days after
this publication you, James A. Hilger,
fail to contribute your proportionate
share of amount due on \$12,144 per
cent, being your interest in said
claim, as of record, and amounting
to \$11,000 as aforesaid in and to said
claim, together with the cost of the
advertisement, your interest in said
claim will become the property of
the undersigned, who has sustained
the expense and improvements as
above stated.

WORTH L. WISWALL,
Attorney.
812-20-27, 04-11-13-25. N.Y. 15-22-29
D6-12

of the month of December. The
shipment consisted of 24 bars, weigh-
ing 43,709 ounces with a value of
\$49,500.

The official report of company
operations for the week as officially
reported by the management is as
follows:

No. 2 Shaft

600 Level—See raise advanced 12
feet in West End Rhyolite.

McKane Shaft

1200 Level—1200 crosscut advanced
38 feet in Extension Breccia.

1500 Level—1500 crosscut advanced
16 feet in Caliente Andesite.
Work of cutting pump station has
been started.

Victor Shaft

1000 Intermediate Level—No. 1 east
and advanced 14 feet on low grade
1800. Stopping on Merger vein.

1600 Level—1600 Intermediate
crosscut advanced 23 feet in Extension
Breccia. 1616 crosscut advanced
2 feet in West End Rhyolite. Stopping
on progress on the Murray, Merger
and Denning veins.

1700 Level—1700 raise advanced 22
feet in West End Rhyolite. Stopping
on progress on the Murray, Merger
and Denning veins.

1800 Level—1800 Intermediate
crosscut advanced 25 feet, prospect-
ing for the Merger vein. 1802 east
intermediate drift advanced 16 feet
on three feet of ore on Anchor vein.

1802 west intermediate Footwall drift
advanced 9 feet on 3 feet of ore in
Anchor vein. 1802 West intermediate
drift advanced 1 foot.

1804 Level—1804 west intermediate
drift, Murray vein, advanced 15 feet
on 6 feet of ore. East west interme-
diate drift, Murray vein, advanced
20 feet on 3 feet of ore. 1800 west
drift, Merger vein, was resumed on
3 feet of ore. 1804 crosscut advanced
14 feet in West End Rhyolite. 1802
east drift advanced 17 feet on low
grade ore. 1802 crosscut advanced
26 feet in Extension Breccia. 1804
crosscut Murray vein, showing 2 feet
of ore on which drifts 1803 east and
west advanced 26 feet and 34 feet
respectively. Ore in 1802 west was
cut off by Denning fault, and drift is
being turned to a crosscut to pick up
ore again.

opment 118 feet. Ore shipped, 353
tons.

Mizpah Shaft

Raise 261 has been started out of
crosscut 255 to get at back of old
tope in Mizpah Fault vein. Drift
15 has holed to the old workings.
Drift 379 discontinued. Raise 371
shows usual progress with no change
to report. Drift 567 east intermediate
has holed into old stop on Mizpah
vein. Drift 579 intermediate, no
change to report. Drift 613 shows
the usual progress with no change to
report. Winze 642, shows satisfac-
tory progress. Development 167 feet.
Ore shipped 600 tons.

Sand Grass Shaft

Raise 1620 has reached the Upper
Sand Grass vein which is barren at
this point. Raise 1621 is raising on
two feet of low grade ore. Raise
1622 has been started to east of
raise 1621. Raise 1161 has advanced
a short distance on low grade ore
in Merger vein. Development 50 feet.
Ore shipped 350 tons.

1100 Level—West drift 11006, off
south crosscut 11003. Miscellaneous
veins, 1 foot of low grade ore. East
drift 11007, off south crosscut 1150.
Miscellaneous veins, vein faulted.
West drift 11008, off south crosscut
1150. Miscellaneous veins, in 1 foot of
fair ore. West drift 11009, off north
crosscut 6. Mizpah Fault vein, holed
into drift from 1056 winze. West
drift 11010, of Northwest crosscut
11002. Miscellaneous veins, in 1 1/2 feet
of fair ore. East drift 11011, off north
crosscut 1196. Middle vein-HWB*, in
1 foot of fair ore. Raise 124 off
slope 105. Favorite vein, in 2 feet of
milling ore.

1165 Level—North crosscut 38, off
west drift from north crosscut 3. East
Favorite vein showing low values.
West drift 39, off north crosscut 38.
Favorite vein, in 2 feet low grade
ore. Raise 50, off east drift from
north crosscut 3. Rhyolite vein, 1 foot
of fair ore. Raise 51, off south cross-
cut 35, prospecting for Mizpah Fault
vein.

1300 Level—East drift 1332, off
south crosscut 1331. Miscellaneous
veins in 2 feet of low grade milling
ore. East drift 1333, off south cross-
cut 1331. Miscellaneous veins, in 2
feet of fair ore.

We give the closest attention to
all kinds of job printing. A trial
order will make you a regular cus-
tomer.

CONDITIONS AT BELMONT MINE SATISFACTORY

Development work is being carried
out at the property of the Tonopah
Belmont Development company on
even different levels and conditions
are excellent throughout an
extensive area of this well-known
mine.

During the past week practically
every separate mining operation was
carried on for motion pictures, and
on five reels that were taken will be
combined into a film showing the
progress and development of the sil-
ver industry. W. N. Fox, cinematog-
rapher, took shots at all of the
Belmont operations that go to make
up the processes from the time the
first holes are drilled until the bullion
is poured and stacked ready for ship-
ment. The results of the pictures will
be awaited with interest by the people
of Tonopah when they are released
by the Educational Film company, for
whom they were made.

A bullion shipment consisting of
60 bars of the precious metal was
shipped on Thursday. It represented
the cleanup for the first 15 days of
the month, contained 114,188 ounces
and had a value of \$130,000.

The official report of company
operations for the week ending De-
cember 21, as given out officially by
the management is as follows:

700 Level—Northwest crosscut 102,
off east drift from raise 5, prospect-
ing in Mizpah Trachyte.

800 Level—Northwest crosscut 8045,
off east drift 802, prospecting in Miz-
pah Trachyte. North crosscut 8050,
off west drift 8043, prospecting for
faulted segment of north vein in
West End Rhyolite. Raise 64, off
southwest crosscut 8048, cut North
vein and shows 2 feet of medium
grade ore.

900 Level—Northeast crosscut
8091, off east drift 9053, being run
for mining purposes.

1000 Level—South crosscut 10071,
off east drift 10005, prospecting in Miz-
pah Trachyte. West drift 10072, off
south crosscut 10017. Miscellaneous
veins, streak of low grade ore. West
drift 10075, off south crosscut 10022.
Favorite vein, 1 foot of medium grade
ore. Raise 118, off north crosscut
1008. Mizpah fault vein, in face of
low grade ore. Raise 121, off north
crosscut 1006, prospecting for down-
ward extension of Favorite vein.
Raise 122, off Timber station, being
run for mining purposes.

Silver Top Shaft

Drift 125 east and west, drifting
was continued on small high grade
stringer. Drift 260 shows the usual
progress was made here. Raise 261
has been started from the end of this
drift. Drift 237 east, drifting was
continued on small high grade string-
ers. Drift 621 was holed through into
the Desert Queen workings. Devel-

During the week ending December
9, a total of 335 feet of development
work was completed, and 1300 tons
of ore raised from the three shafts
of the Tonopah Mining company's
property. While not quite as great a
cleanup as during the previous
week, the tonnage and develop-
ment work completed was most satis-
factory.

During the week a shipment of
bullion was made representing the
cleanup for the first 15 days of
December. The shipment consisted
of 26 bars of the precious metal with
a value of \$57,000.

The official report of the company
operations for the period as given
out officially by the management is
as follows:

Not such a bad come-back at that

WE WERE all sitting
IN THE smoking car,
AND HARRY, who admits,
HE'S A born comedian,
TURNED TO me and said,
"I'D BEEN reading about
SPIRIT MESSAGES, and guess
WHAT HAPPENED to me.
I DREAMED my watch was gone,
AND WOKE and looked."
OF COURSE I had to bite,
AND ASK, "Was it gone?"
AND HE said, "No—
BUT IT was going."
SO THEY kidded me till
I THOUGHT I'd got hunk,
SO I said, "Well,
I DREAMED one day,
WHILE RIDING with Harry,
THAT THE barn was burning,
BUT WOKE up and gosh,
IT WAS Harry's cigarette."
AND HARRY said,
"NOT TODAY, old dear,
I'M SMOKING your kind now."
AND PULLED a pack
OF "SATISFY'S."
AND THE only come-back
I COULD score up was,
"ISN'T THAT glassine wrapper,
GREAT FOR keeping
CIGARETTES FROM drying,
EVEN IN hot air?"

EXTRA! The Chesterfield
moisture-proof wrapper.
Increases our cost, not yours—
but it's good business, for it
adds to your enjoyment. It pre-
serves the delicate flavor of
these wonderful Turkish and
Domestic tobaccos, and keeps the
cigarettes firm, fresh and good-
tasting whatever the weather.
